

About Us

Banyan Group International (BGI) is a business development company headquartered in Israel, with offices in India and the USA.

Our vision is to utilize technology and industrial cooperation between two great nations, India and Israel, for mutual growth, public benefit, and long-term partnership.

Our core purpose is to forge valuable commercial relationships between Israeli and Indian companies by providing access to the other's market, and making use of their respective technology and industrial advantages.

Comprised of seasoned marketing and technical professionals, with over 30 years of hands-on experience in international business development, BGI's greatest strengths lie in understanding the complex business culture environments of Israel and India. Our global partners respect our core values of integrity, responsibility and pursuit of excellence.

Warming diplomatic and commercial relationships between Israel and India have created unparalleled opportunities for cooperation between companies operating in both countries. BGI is active in industries including defence and aerospace, metals, dental and medical, agriculture, solar energy and water.

India's unprecedented rapid growth, high domestic demand, and emerging affluent middle class, positions it as one of the most attractive emerging markets for Israeli companies. The combination of an unlimited and highly technical work-force with an abundance of world-class manufacturers has made Indian companies valuable sourcing and outsourcing partners for Israeli companies bent on becoming more efficient or for companies obligated to "Buy-Back" stemming from Offset Agreements.

Nicknamed "The Start-Up Nation", Israel is recognized for its creativity and technological innovations in fields such as Renewable Energy, Defence, Homeland Security, Agriculture, Medical, Irrigation and Water Technology. Israel is the perfect source of technological solutions for public and private Indian companies, while at the same time a target market for Indian suppliers of raw materials, components and outsourcing services.
