Carrefour Group

SUBJ: Carrefour Group's complicity in Israel's grave violations of Palestinian human rights.

I've recently learned that Carrefour Group signed a franchise agreement with Israeli companies Electra Consumer Products and its subsidiary Yenot Bitan, both active in the illegal Israeli settlement enterprise—a war crime under international law. This decision makes Carrefour complicit in war crimes committed by the Israeli regime of occupation, settler-colonialism and apartheid over the Indigenous Palestinian people.

Carrefour Group, like several other Western companies, decided to withdraw Russian products from their stores as a form of protest merely *weeks* into the Russian invasion of Ukraine. Where is Carrefour's moral stance against Israel's regime of military occupation, settler colonialism and apartheid that has oppressed Palestinians for *decades*?

I therefore ask Carrefour Group to end this partnership with these two complicit Israeli companies and to stop all sales of products from illegal Israeli settlements in all supermarkets and convenience stores Carrefour Group operates around the world. Carrefour Group should never support an apartheid and settler colonial regime.

Until Carrefour Group stops making profit from Israel's oppression of the Palestinian people, I have decided to boycott every Carrefour-branded supermarket or convenience store, including yours. I am spreading the word about this boycott in my local community. This is a moral stand that I'm proud to take.
